

WSF CONFERENCE 2022

28 – 29 October

Grand Chola Hotel Chennai, India

Subject: Clean Sport ITA & WADA partnership

- ◆ Summary: The rarity of doping issues within squash can create a risk of complacency. This session outlines the implications of not taking anti-doping education sufficiently seriously and ensuring we use the tools available.

ITA EDUCATION

- ◆ The WSF is investing in an education program that includes a virtual 5-week anti-doping course in six languages and event-based education at key events, delivered in collaboration with the International Testing Agency.
- ◆ However, it is important to emphasise that education of the players remains a responsibility of the National Federations. It is strongly encouraged that the NFs work in collaboration with their NADOs to make sure that the athletes and their support personnel are educated before they arrive at WSF international events.

ITA EDUCATION

- If no education resources are available nationally, NFs can take advantage of the ITA virtual course that is completely free and again, available in multiple languages. In addition, any athlete, member of support personnel, medical team, administrator etc. can open a free ADEL account: <https://adel.wada-ama.org/>.
- WADA offers free courses in a variety of languages for different target groups, In summary, anti-doping education is available and completely free to you and members of your delegations – please make good use of it as the consequences of a positive test are severe for both the athlete and the National Federation.

EVENT REPORT – WSF

WORLD JUNIOR CHAMPIONSHIPS NANCY, FRANCE August 2022

COMPARISON

99% OF POSITIVE RESPONSE FROM THE ATHLETE OR A COACH

WSF Testing Programme

ADAMS data from 20.10.2022

- ◆ Out of 201 tests collected In-Competition and Out-of-Competition, **108** were conducted under WSF Testing Authority.
- ◆ Out of **76** tests collected In-Competition by WSF, 61 were collected during PSA events.

WSF Testing Programme

◆ Pool composition

Registered Testing Pool (RTP)	Testing Pool (TP)
4 Female / 4 Male	3 Female / 3 Male

- ◆ Athletes in the WSF RTP or TP are required to submit and update whereabouts information in ADAMS.
- ◆ National Federations are supporting clean sport through educating athletes on the importance of providing/updating accurate whereabouts information.
- ◆ For additional information relating to whereabouts support, please contact the International Testing Agency at wsf@ita.sport
